REMARKS: Aside from her height, her body hides more than it shows. While she clearly appears somewhat muscular, the real extent of her muscle mass is much more than meets the eye, as shown by her weight. Her eyes have wrinkles and bags under them due to a lack of sleep. By her own word, she is simply incapable of sleeping. Her fingernails are long and slightly pointed, but curiously capable of extending and taking the form of claws at will. She has remarkable control over her two cat tails, even able to pick up and hold many objects. Four blue flame wisps float around her, but are rarely seen as they do not appear on film and only appear to the naked eye when she allows them to. The symbol she refers to as "the brand" is burned onto her back and glows white with a red outline, just bright enough to shine through one layer of clothing.

ADDITIONAL INFORMATION: Her personality is fierce and flirtatious, almost always striking something between arrogance and seduction in her body language. She is very expressive, almost always smiling and rarely seen with relaxed eyes. Bursting with confidence, charisma and charm, she can nonchalantly talk her way into, out of, or around just about anything while humiliating others in the process. She has not an ounce of shame or shyness, is very good at catching eyes and is no stranger to using her body to get her way. When words or wiles fail, she is not afraid to resort to violence. With her incredible strength, dexterity and reflexes, it almost never fails, and can get incredibly cruel and humiliating. She is very aware of her ego, so while she enjoys toying with people and thinks very little of most, she will show great respect to anyone with the self-assurance to stand up to her. She has a penchant for flashy theatrics and bravado, often making a show out of innocuous interactions and drawing things out. Particularly interested in guns, motorcycles, and metalworking. Her marksmanship is second to none. By her own admission, she constantly craves indulgence, be it innocent, sexual, violent, or any mixture of those things, and tends to give into her temptations much easier when bored. She gets bored very easily. Underneath the rough exterior, she is genuinely warm and compassionate.
